# Getting Started

## Extension Overview

Configurable grid view extension for Magento to display the simple associated products within a table view. It works for the configurable products with any number of attributes and allows for an unlimited number of options for each attribute. It allows your customer to increase/decrease the quantity of product configuration in a grid view table and can add more than one product configuration to cart at a time.

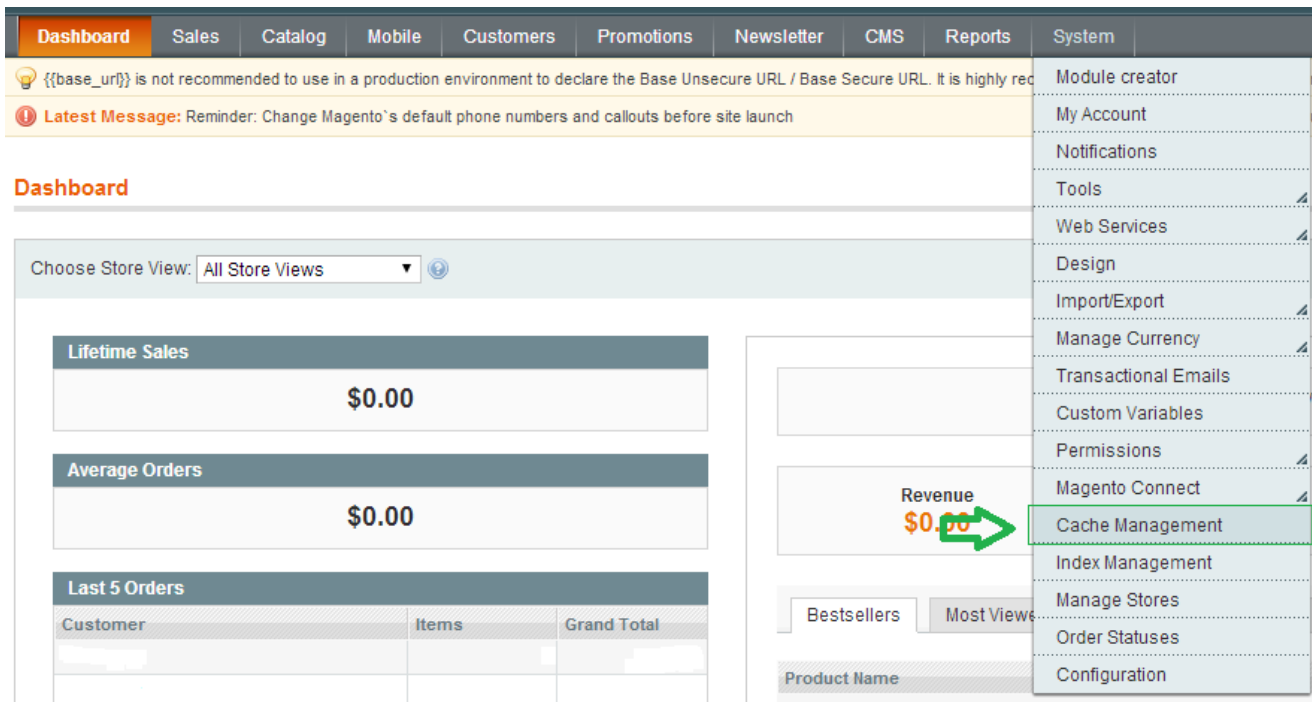

## Installation and Configuration

- 1:** It is recommended that first you take the backup of server's files and database before installing this extension.
- 2:** Upload the *App*, *Skin* folder from the 'extension files' directory to the root of your Magento store.
- 3:** Login to your Magento Store

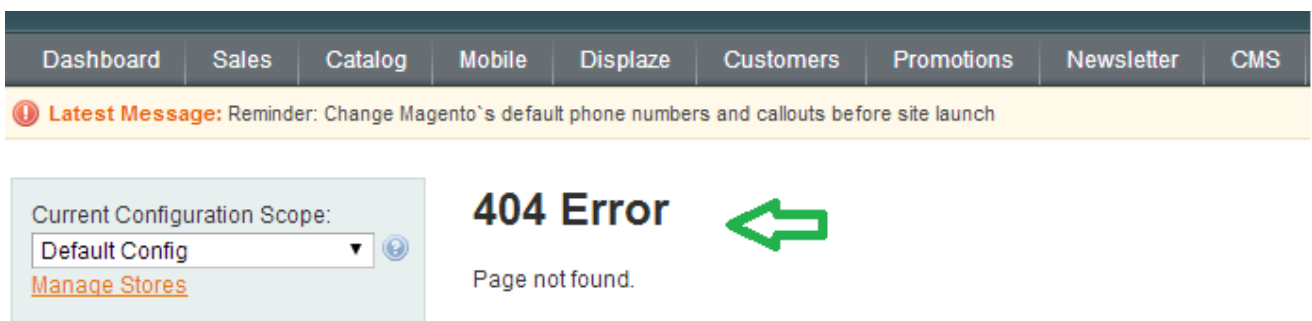

The image shows the Magento Admin Panel login interface. On the left is the Magento logo. The main heading is "Log in to Admin Panel". Below this are two input fields: "User Name:" with the text "username" and "Password:" with masked characters "\*\*\*\*\*". A link "[Forgot your password?](#)" is located below the username field. An orange "Login" button is positioned to the right of the password field. At the bottom, a footer states "Magento is a trademark of Magento Inc. Copyright © 2014 Magento Inc."

**4:** Now go to System > Cache Management > Cache Control

The screenshot shows the Magento 2 dashboard. The top navigation bar includes links for Dashboard, Sales, Catalog, Mobile, Customers, Promotions, Newsletter, CMS, Reports, and System. A warning message at the top states: "Latest Message: Reminder: Change Magento's default phone numbers and callouts before site launch". The main content area is titled "Dashboard" and features a "Choose Store View" dropdown set to "All Store Views". Below this, there are three summary cards: "Lifetime Sales" showing "\$0.00", "Average Orders" showing "\$0.00", and "Last 5 Orders" which is a table with columns for Customer, Items, and Grand Total. On the right side, there is a "Revenue" card showing "\$0.00" with a green arrow pointing to it. The "System" menu is open on the right, listing various options: Module creator, My Account, Notifications, Tools, Web Services, Design, Import/Export, Manage Currency, Transactional Emails, Custom Variables, Permissions, Magento Connect, Cache Management (highlighted with a green box and a green arrow), Index Management, Manage Stores, Order Statuses, and Configuration.

**5:** Now go to *System > Configuration > Configurable Grid View*, If you get a 404 page error when accessing the price offer configuration page then logout and log back in again.

The screenshot shows the Magento 2 Configuration page. The top navigation bar includes links for Dashboard, Sales, Catalog, Mobile, Displaze, Customers, Promotions, Newsletter, and CMS. A warning message at the top states: "Latest Message: Reminder: Change Magento's default phone numbers and callouts before site launch". The main content area is titled "Current Configuration Scope:" and features a dropdown menu set to "Default Config" with a link to "Manage Stores" below it. To the right of the dropdown, the text "404 Error" is displayed in large, bold letters, with a green arrow pointing to it. Below the error message, the text "Page not found." is visible.

**6:** Check the configuration go to *System > Configuration > Configurable Grid View*
